

VINEYARD SIZE

5,5 Ha.

YIELD

60 to 90 quintals/ Ha.

BOTTLE SIZE

0,75 lt.

FIRST VINTAGE

2002.

RIVA ARSIGLIA

2025

VINIFICATION

The grapes are harvested and put in crates, brought to the cellar and destemmed, then pressed at 0,8 bar of pressure.

Fermentation is brought forth by native yeasts, and proceeds without the use of temperature control.

AGEING

After spontaneous fermentation with indigenous yeasts in concrete tanks, the wine ages for approximately one year in large oak casks. It is then bottled without further stabilization.

GRAPE VARIETY

White grapes from the region.

TYPE OF WINE

Still white wine.

The wine is produced in Italy.

SOIL

Hill grounds of volcanic origin in Gambellara.

AVERAGE VINEYARD SIZE

About 60 years old (first vines planted in 1935).
